

NATURALEZA MUERTA

Tuberosa presents a collection of Palissy-ware, the celebrated 16th century French technique known to be ornamental rather than functional. Unlike the original Trompe-l'œil potteries, Tuberosa explore elements of lightings like candlestick and sconce as well as decor, such as mirror and mobile. Other twist on Bernard Palissy's tradition are the tea sets, vases and planters. The show is on display from February 2nd to 29th by appointment only.
